

We can write a slide like this. No need for a bracketted structure.

We can create a paragraph with consecutive \n\n. We can create a new line with #newline

We got a different font

Place text where you want

{ What if we have many blocks of text with the  
Well we got you covered. }  
same font.

We can even add images

Let's add a picture of a cat

Let's add a picture of a dog

Let's add a picture of a bird

Let's add a picture of a fish

Let's add a picture of a flower

Let's add a picture of a tree

Let's add a picture of a car

Let's add a picture of a house

Let's add a picture of a person

Let's add a picture of a landscape

Let's add a picture of a sunset

Let's add a picture of a moon

1 We need to think about headers this is syntactic sugar -Bullets -And bullet points --And double bullets
